## BLINDING BLIZZARD RAKES CANYON AREA

### Motorists Savor WT Hospitality

More than 50 stranded people found hospitality Sunday night at the West Texas State University Activities Center as guests of Jim Holston, program director there.

The group which came pouring into the center Sunday evening included lawyers, a doctor, nurses, a group of fishermen and a teenage singing group returning home to Colorado after an engagement at Abilene Christian College.

The teenagers slept snug under covers on wrestling mats located on the second floor of the building.

"They were running around having fun but I finally got them to bed about 4 o'clock Monday morning," commented Holston.

The men played pool and the women visited during the long evening.

Debbie Dodson of Perryton and Linda Taylor came over with food for the group and sororities and other groups furnished blankets.

"Everyone had a blanket," Holston reported.

One couple hiked from the highway. The young woman was thoroughly

chilled by the time she reached the center and received immediate attention from the doctor and the nurses present.

The WTSU cafeteria served breakfast in style Monday morning. Most of the people had waffles and some of them even remained over for lunch Monday noon.

Holston was high in his praise of two Canyon brothers, Sam and John Cummins. "They were here by 6 o'clock Monday morning," said Holston. "Sam was here at the center shoveling snow and John was at the cafeteria helping prepare breakfast."

### Minister To Speak In March

Dr. Norman Pittinger, author and a member of the faculty of divinity at England's Cambridge University, will be at West Texas State University Mar. 3-5 under the auspices of the United Campus Ministry.

At 8 p.m. Wednesday, Dr. Pittinger will speak to the faculty of the College of Arts and Sciences on "Christian Faith and the Question of History." UCM Chaplain James Bethell said that all interested townspeople and students would be welcome, as well. The talk will be made in the ballroom of the WT Activities Center.

Thursday has been designated Clergy Education Day and the visitor will conduct four lecture sessions. In the morning, he will speak in the Activities Center on "The Re-thinking of the Concept of Sin and Belief in the Holy Spirit: Who He Is and What He Does." Times are 9:30 and 11. After lunch he will speak on "The Theology of the Church" (see MINISTER, page 9).

### Sanford Is Named Posse Head

A. P. Sanford of Canyon was elected president of the Randall County Sheriff's Posse for 1971 during a membership meeting last week.

Terry Jo Reynolds, daughter of Mr. and Mrs. Earl Reynolds of Canyon, was selected queen of the club.

Emil Olson of Canyon was named vice president, and Blain Hufnagle of Canyon (see POSSE, page 9).

### In State Meet

## To Play Carthage

Canyon's Girl Eagle basketball team for the third straight season will go into the state schoolgirl championship playoffs Friday night.

The girl Eagles meet a tough Carthage Bulldog team at 7 o'clock in Austin.

Winner of the Canyon-Carthage game will take on the winner of a Victoria-Brenham clash.

Carthage beat Rockdale in Palestine last Friday night 45-44 in a contest decided in the last 17 seconds to take the regional crown and advance to state.

The score was 44-43 in favor of Rockdale with 17 seconds left on the clock when Margo Williams went to the foul line and sank two free throws — the margin of victory.

Lynette Slack in the Boswell game... the girl Eagles take the regional crown for the third straight year.

Two of the more than 50 stalled cars in Canyon are shown here on Fourth Avenue Monday. Heavy equipment clawed out motorists through the snow early Monday but a number of vehicles remained stalled until Tuesday.

### For Junior High

## Open House Sunday

Canyon Schools will be observing Texas Public Schools Week from Monday through Friday with open houses and special events.

The new building at Canyon Junior High School will be open for inspection Sunday from 2:30 to 5 p.m. with student guides available and refreshments prepared by the home economics classes being served in the cafeteria. Teachers will welcome visitors in each area.

The town's service clubs have been invited to meet in the junior high cafeteria this week. The Rotarians

will lunch there Tuesday, the Lions Club, Wednesday, and the Kiwanis Club, on Friday.

The building will be open again on Tuesday evening from 7 to 9. Teachers will be in their rooms and diagrams of the building will be available for visitors. No guide service is planned.

At both the junior high and Canyon High School, drug seminars have been scheduled for Wednesday and Thursday.

The high school also plans an open house for Tuesday from 7:30 to 9 p.m. The home economics department will serve refreshments. Teaching staffs will be available for consultation.

At Rex Reeves Elementary School, there will be a choir program Tuesday evening and a band concert Thursday evening at 7:30. The performances will be in the all-purpose room. Parents of sixth-graders are to be invited to these and open house will be held in home

rooms afterward.

The parents of Rex Reeves students will be receiving invitations for specific hours, according to Principal Oscar Hinger, in order to help the school accommodate the large number of visitors involved.

### Two Named Finalists In NMS

Two Canyon High School seniors, Jamie Martin and Bill Byrd, have been named as National Merit Scholarship finalists.

The two scholars were among 16,000 finalists out of approximately 150,000 who took the examination during the fall term.

From the finalists, one thousand National Merit Scholarship winners will be selected and receive a check for \$1,000 that may be applied toward college expenses (see FINALIST, page 9).

## Use Your Talent Says Jeane Dixon

BY MARGO CRABTREE

"It is not the talent but what is done with that talent" is Jeane Dixon's theme and hope for future America.

Mrs. Dixon gave glimmers of hope while suggesting a bleak future to some 3,000 persons Tuesday night at the West Texas State Field House.

The famed seeress laid the

success and fulfillment of the United States and the world in the hands of the individual and his ability to develop God-given talent, "small or large."

She prodded her audience as Texans to lead the nation to realization of what the individual can do.

"If people only knew they have a reason to be here," she noted, "And they do have a reason."

"My small talent may be needed by the Lord to finish his piece of art," Mrs. Dixon believes. "It is not the talent but what is done with that talent."

Mrs. Dixon spiced her serious lecture with a few predictions about the West Texas State Buffaloes under the direction of the new athletic director and head football coach Gene Mayfield.

### Stock Toll Heavy, Many Cattle Drift

BY TROY MARTIN  
AND  
MARGO CRABTREE

Blinding snow whipped by moderate to strong winds clogged thoroughfares, stranded motorists and wrought havoc among livestock in Randall County Saturday night and Sunday.

About seven inches of extremely wet snow brought .76 inches of moisture to the area but parched wheat fields benefitted very little.

Dairymen poured out thousands of gallons of milk because transport trucks could not reach the dairy farms.

There were some reports of cattle dying in the storm but a hog farmer at Ralph Switch seemed hardest hit of any stockmen in the area.

Although rations and fuel ran short at some farm houses, officials reported no cases of dire emergency.

The girl Eagle basketball team after winning the regional championship made it back from Sweetwater about 5 o'clock Sunday morning. Several fans including a Canyon News photographer were stranded in towns along the way.

There were no serious accidents reported by officers although vehicles were stranded all over the city and along the highways.

Jimmy Craig at Ralph Switch said he lost 208 head of hogs including six grown sows with the remainder being about 70-pounders. Craig maintains about 1400 head of hogs in his operation penned in pens of 50.

He said the snow blew up under the sheds and was melted by body heat of the animals creating about 8 inches of water at the bottom of the pens.

The pigs bunched together with some on the bottom. Those on the bottom drown. He valued the animals lost at about \$5,000.

Death loss among cattle in the immediate vicinity of Canyon was slight but death loss west of Happy was extremely heavy.

Sammy Cates west of Happy reported 33 steers dead — suffocated or drown

in snow. Glen Carter southwest of Happy reported 40 steers dead. Albert Null lost 29, Kip Morgan 40 head and Jerry Harvey east of Happy reported 22 dead steers.

Willard Middleton, Happy druggist, said cattle from Happy had drifted to Tulia and beyond. O.H. Rahlfs was reported to have lost 75

(see SNOW, page 9)

### City Makes Arrangement For Trash

The city will make an effort to pick up trash in front of homes as soon as possible, according to City Manager George Loudder.

Loudder said there is little possibility of clearing alleys in less than a week.

He advised the public that trash placed next to streets in front of homes must be in containers and asked people to use the load-all containers wherever possible.

Load-all containers will be placed at the city swimming pool, the city hall annex lot and at the opening of the alley between Sixth and Seventh Avenues on 25th Street.

Jeane Dixon, famed seeress, was swamped by autograph seekers after her speech Tuesday night in the West Texas State Field House. Mrs. Dixon spoke before a crowd of more than 3,000 persons predicting political and spiritual

events for the future. A question and answer session immediately following her lecture spiced the evening with even more predictions from Mrs. Dixon.

**by Troy Martin**  
**FROM THE**  
**CANYON RIM**

Prophetess Jeane Dixon told about 3,000 people Tuesday night that when Coach Gene Mayfield sees a white buffalo the Buffs will be nationally ranked.

Mrs. Dixon could have meant this two different ways. If she meant it literally, the chances of the coach actually seeing the rare albino are almost nil.

If she meant that when Mayfield gets a vision of a white buffalo the event will come to pass then the chances are much better.

About three years ago a fraternity purchased a statue of a buffalo from an artist here. The artist had done his work in the basement of the building occupied by Canyon Plastics.

I had gone to the plant to do a feature story on the plastics manufacturing and happened onto the buffalo by accident.

Pushed by a West Texas State fraternity and other interested people a fund was

raised to buy the statue and it was placed on the hill in sight of the highway at Buffalo Bowl.

At this column's suggestion, the buffalo was painted white. I thought it was extremely important that it be painted white.

The albino buffalo had a deep religious significance to the Plains Indian and even if he were starving he would never kill one.

C. Boone McClure, curator at the museum here, said there is on record only two instances of the sacred white buffalo ever having been killed. Significantly, they both were killed by white men.

Robert Taylor starred in a film based on the killing of the sacred bison. He killed a white buffalo and then in a

blizzard wrapped up in a buffalo hide to keep warm.

The new buffalo hide froze holding him in a frigid and deadly embrace. He died there — retribution for having slain the sacred beast.

I strongly suggest that Coach Mayfield visit Buffalo Bowl some bright afternoon and stare at the image of the white buffalo until he is certain to be visited by Jeane Dixon's harbinger of good fortune when he finally sleeps.

Maybe the spell will also help us fill Buffalo Stadium with paying spectators. We need those as much or more than we need national ranking.

Canyon High School does not offer a prospective football coach one of the most inviting situations in AAA in the Panhandle.

There are a number of reasons that it is hard for a coach to come to Canyon and win.

One of the foremost, I think, is that loyalties are often split between the university and high school teams. The Eagles do not always draw well even when they are winning.

The Canyon Eagles must play away from home every Friday night — an obstacle not confronted by any of their opponents. They play their home games in Buffalo Bowl and even a big crowd for a high school game is lost in the 20,000 seat stadium.

In the 10 years I've lived at Canyon we've had three football coaches — all consistent winners before they arrived here. They've all three had pretty tough sledding on the Canyon scene.

Right now the Canyon school system has inadequate dressing room facilities and inadequate gymnasium facilities when compared to those of schools with which the Canyon Eagles must compete.

Ask any coach or sports-writer, and he will tell you that facilities and financial support are almost as important to producing winning athletic teams as material.

Look at the consistently great teams which we hear so much about in this area — Permian of Odessa, Phillips and Dumas. All are from oil towns and the boys

don't play better football because they have petroleum in their blood. They all three have one thing in common — facilities and financial backing.

The facilities of Permian of Odessa are so elaborate that Coach Mayfield thought twice before accepting the head coaching job at his university alma mater and leaving them.

A coach that has two commodes and four shower heads for 70 football boys is in trouble.

I am not remotely criticizing the board of education. I am not even suggesting that they run out and build a new gymnasium for our crowded basketball program, a high school stadium or even new dressing rooms.

I know that Canyon primarily is a residential town and the board does not have vast financial resources.

I am only pointing out as we bring in a new head football coach that we couldn't even expect a Knute Rockne to give us a AAA state champion unless we pay the price.

Since we may not have the price to pay it is just possible that we may have to be satisfied with less except for a few scattered years of outstanding talent which come to every school regardless of monetary outlay.

## Our World

**BY ANN BROWN**

Beautiful, ageless, diminutive Jeane Dixon can hold an audience spellbound for hours. Preachers who complain of the impossibility of holding the attention of their congregations for 30 minutes might well take a leaf from her notebook.

The internationally famous 20th century prophetess chatted comfortably about a wide variety of subjects to a near-capacity crowd at the WT Field House. The audience ranged in age from tiny infants to people in their late 80's. Young, old, and in between, they listened with rapt attention.

Mrs. Dixon insisted that every person has a talent, however small, that is needed to complete the beautiful tapestry the Creator is weaving for His Universe. And only as we become attuned with Him can we find a happy, productive place in the world.

Whether her prophetic power, or simply the charisma with which she is so richly endowed has gained her an international following is debatable. Whatever it is, it works wherever she goes.

Unlike Biblical prophets, she is not without honor in her own country. The Air Line Traffic Association of Washington, D.C. has presented her with an Honor-

ary Life Membership Award. Mrs. Dixon is the first woman ever to be so honored.

In 1970 she won the Woman of the World Award. It was presented by the International Orphans in conjunction with the various branches of Service. This signal honor was in recognition of her devoted service to orphan children of the world.

Mrs. Dixon claims no credit for her altruism. She readily admits her greatest joy comes from helping others.

The project claiming first priority with the busy prophetess is a Research Medical Center. Initially, children's diseases will be of primary concern, but gradually the scope of operations will expand to include all ages. Still in the planning stages, the Center will be under the auspices of the Children to Children, Inc., the Foundation of which Mrs. Dixon is both Founder and President. She hopes it will eliminate many birth defects, mental retardation, mongolism, and other facets of human misery.

Mrs. Dixon has not yet chosen the site for her clinic. Originally planned for Washington, D.C., it may be located in one of three states. And, of course, Texas is among the three. The hospital will be of dome shaped construction. It will contain

a magnificent all-faiths chapel. The exterior will be covered with stained glass, crowned with a soaring spire, tipped by an eternal flame.

Mrs. Dixon says the children of today will be the citizens of tomorrow. Therefore they must be given every opportunity to develop to their full potential if the world is to know peace and harmony.

In answer to questions from the audience about some of the most pressing problems in our society, Mrs. Dixon readily replied that our only hope is exactly what it has always been: obedience to God. She added that it must begin with the clergy. She cautioned, however, that we should never allow a poor relationship with church or clergy to interfere with our relationship with God.

Jeane Dixon is a living example of Luke 6:38. The love she has poured out upon the world has been lavished upon her in return. She insists the solution to the problems of the human race is love — the only emotion stronger than the hate that is destroying us.

Dear Troy:

In fairness to reputable professionals who are engaged in counseling, I wish to comment that Mrs. Brown stressed a single particular viewpoint toward the basic encounter groups. There are other viewpoints having merit which are equally entitled to representation. I regret that Mrs. Brown's columns of February 11 and February 18 did not reflect the quality of research that I expect, perhaps unfairly, from ethical journalism.

Sincerely,  
Thomas M. Cannon, Jr.,

Dear Editor:

It's very confusing. Some churches are saying that the "so-called" hippie peace sign is communistic & satanic. Other churches say that the hippie peace sign is a good symbol standing for disarmament.

Which is true?  
Sincerely,

**Commissioners Meet Is Friday**

Regular meeting of Randall County commissioners court which was delayed because of the blizzard will be held at 1 o'clock Friday afternoon in the commissioners room at the court house.

Most important item of business on the agenda is selection of a county depository. Two bids have been submitted — by West Texas State Bank and Canyon First National Bank.

The bids were tabled for further study at last week's meeting.

The court is scheduled to make appointments to the Veterans Land Board county committee.

Voting places for the May 18 constitutional amendment election will be designated. There will be a discussion of Panhandle Regional Planning Commission.

Several members of the court have expressed dissatisfaction with operation of PRPC in the past.

Commissioners will hear a request for road improvements from a delegation from Precinct 2 and will also hear a report from County Road Superintendent Bob Burns.

Fellow citizens and compatriots... I am besieged, by a thousand or more of the Mexicans under Santa Anna... I have sustained a continual Bombardment & cannonade for 24 hours and have not lost a man... The enemy has demanded a surrender at discretion, otherwise, the garrison are to be put to the sword, if the fort is taken... I have answered the demand with a cannon shot, & our flag still waves proudly from the walls... I shall never surrender or retreat. Then I call on you in the name of liberty, of patriotism & everything dear to the American character, to come to our aid with all dispatch... The enemy is receiving reinforcements daily & will no doubt increase to three or four thousand in four or five days. **C-C Banquet Set Tonight**

Dr. Charles Jarvis, San Marcos humorist and dentist, will speak at the annual Chamber of Commerce banquet tonight at 8 in the East Dining Hall at West Texas State University.

The 47-year-old Jarvis is reported to give more than 100 talks a year. He is on the national circuit of the Knife and Fork Clubs of America, Inc.

Banquet-goers will witness the presentation of the Outstanding Citizen Award by Eddie Knowles, Chamber president and master of ceremonies. Identity of the recipient is kept secret until the banquet.

Dr. James P. Cornette will introduce the main speaker.

The invocation will be given by the Rev. Bill Foil. Kenneth Thompson will introduce the Chamber directors. Directors of the Women's Division will be introduced by Mrs. Kenneth Olsen.

Dr. Jarvis turned professional after speaking free for a year. He often talks to groups three times a week.

A graduate of the United States Naval Academy at Annapolis and the University of Texas Dental School, he was quoted in the Dec. 13 "Southwest Scene" as saying that he chose to practice in San Marcos because the town was small enough that "when I fell with a heart attack, people wouldn't cuss me for blocking the sidewalk."

Happy Home Environment  
**WHAT'S THE IDEAL?**

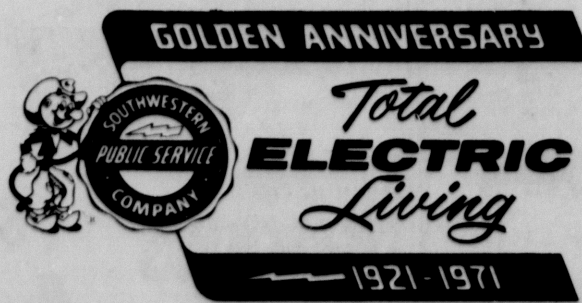

■ Most people would agree that the ideal happy home environment must take into consideration the environmental aspects as well as the spiritual and human relationships.

■ In the present state of technology, electricity does its job well when it comes to environmental aspects of conditioning the air in your home.

■ The ideal system, now available, not only does its job of comfort heating in winter and comfort cooling in summer but also refines the air itself. Electric humidifiers control the amount of moisture in the air and electrostatic air cleaners remove undesirable dust particles.

■ So then, 4 things to give you a happier home environment... electric heating, electric cooling, electric humidification and electric air cleaning... and all of it automatically. Ask your Public Service manager for complete information.

head in this manner but they had drifted only about seven miles to the south.

Walter Cranmer here at Canyon said he lost two springer heifers and four calves from suffocation or drowning in the snow.

Cattleman Bob Lindsey of Canyon said cattle are drifting unclaimed all over the Panhandle. "I don't know how we're going to get our cattle back," he declared. "They're drifting all over the Panhandle. I saw 700 head along the roads between here and Hereford today."

Lindsey fears an outbreak of cattle rustling. He called Don King, executive vice president of the Texas and Southwest Cattle Raisers Association in Fort Worth Wednesday morning suggesting an embargo on all Panhandle cattle until owners have had a chance to reclaim their herds.

"By that I mean no head of cattle should be permitted to be shipped out of the Panhandle, consigned to a feed yard or sold in any manner without first undergoing a brand inspection," the rancher said.

All streets in Canyon and highways leading out of town were blocked by Sunday afternoon.

Canyon Police Sgt. James Trosper said some 50 vehicles were stuck in the snow Sunday. Most of them were not extracted until late Monday.

He said there were some eight accidents of a minor nature during the storm. Nine stranded motorists spent about 15 hours in the Canyon Community Center where there is a kitchen, warmth and food.

Police and sheriff's deputies were pressed into the service delivering medicine around town Sunday and Monday and transporting nurses to and from work.

Maintenance crews began work Monday and had most of the streets at least passable by Monday night.

A few country roads remained closed as late as Wednesday morning although County Road Superintendent Bob Burns said most roads were open by Tuesday night.

Dairymen suffered most as a result of country roads being closed. Dairyman Charlie Gerald said his hands poured 1,000 gallons a day down the drain.

He said milk to supply area cities was brought in from the south since the Oklahoma milk shed which supplies most of the area's milk was inaccessible.

"I had to go to the grocery store and buy milk for the family while milk at the farm was being poured out," commented Dairyman Gerald who lives in town and could not make it to the farm during the storm.

Burns said he used all county road crews, county equipment and two rented bulldozers in getting the county roads open. He said there was one instance in which a family ran short of fuel but that he had heard of no extreme emergencies during the storm.

The E-way was blocked by snow Sunday and part of Monday but was open to all traffic early Monday afternoon.

The coop feedlot at Happy was reported to have lost 30 head of young calves. Bruce Lusk, manager of Randall County Feed Yard north of Canyon said his firm suffered no losses and feeding operations were back on schedule by Tuesday.

Paul Ferguson, director of Buffalo Lake Wildlife Refuge, said about 150 head of cattle had drifted into the refuge during the blizzard. Ranchers still were busy herding their cattle out of the area at midweek.

City Manager George Loudder said getting the streets passable was a relatively simple task when compared to alleys.

"There's no way we can clear the alleys," said Loudder, "and trash collection is emerging as our major problem." He appealed to the people to be patient.

Business in Canyon came almost to a standstill Monday. Few business houses were open. The court house was closed as were West Texas State University and the Canyon Schools.

School resumed at WTSU and in the public school system Tuesday and business was about back to normal.

School Superintendent Jerry Jacobs, said school attendance Tuesday was about 75 percent. Average attendance runs about 95 percent.

Jacobs said busses had very little trouble making their rounds although one became stuck about two blocks from school at an icy intersection.

Fire Chief Jack Jennings said local firemen made some 50 calls Sunday and Monday transporting nurses and nursing home personnel and delivering medicine.

The fire department's waste

sel was used to make numerous calls.

Umbarger was isolated from 11:20 p.m. Saturday until 11 a.m. Monday as telephone circuits between that community and Canyon went out.

With few exceptions, telephone service in Umbarger was not affected.

Possibly the saddest aspect of the troublesome, costly blizzard was the fact that the snow blew off the parched, barren fields so badly in need of moisture and did little if any good for the community's agriculture.

sees the great white Buffalo will West Texas State University reach a national ranking, so," she continued, "let us all hope he sees that white Buffalo soon."

She reviewed many of her earlier predictions concerning the deaths of President John F. Kennedy in 1963 and Robert Kennedy in 1968. "John Kennedy's assassination was a revelation made to me by God," she recalled. "Will of humanity cannot change the will of God, and the assassination of Pres. Kennedy was the will of God."

Mrs. Dixon predicted in 1952 and again in 1956 that a Democratic president would be elected and seated in 1960 but would be assassinated in his first term.

Mrs. Dixon recalled that during the fall of 1967 she became concerned that if Senator Robert Kennedy announced his candidacy for the presidency he too would be assassinated due to man-made plans.

"Robert Kennedy's death was due to man-made plans and could have been averted, but President John Kennedy's assassination was a revelation by God," she continued.

The prophetess recalled President Lyndon Johnson's term in office saying, "President Johnson knew we could not negotiate peace in South Viet Nam because we could not negotiate from a position of strength with the U.S.S.R."

"President Richard Nixon would like to negotiate peace, but he cannot because we would not negotiate from a position of strength."

"There is not one man who can bring unity and peace to the people in America unless we work for that unity," she said.

But she gave hope by predicting "Communism will never win out in this country in the long run."

Mrs. Dixon named the Black Panthers and the Students for a Democratic Society as destructive forces in the U.S.

"The Black Panthers are run more by white people than by colored people," she said.

The seeress also predicted that Americans will face a time when they must choose between anarchy and repression and "we will choose repression unless we realize that's what the destructive forces want."

The answer to our nation is "change is needed, but change through transformation of the mind not through revolution."

"Until we develop our divinely given talents we will not find harmony on this earth."

She dealt with the outer space program predicting that great sources of energy will be found in outer space.

"Star ship exploration will become a reality in the next century," she predicted. "Therein lies a great future in space."

She doubts if a great deal of housing on other planets would ever be a reality, but she foresees the discovery of an energy source from outer space that will help in curing diseases.

During a question and answer session following her formal speech, Mrs. Dixon fielded such questions as the future of California Governor Ronald Reagan: "He has international vibrations and would be good for our nation. I will pray for him."

Is it too late to negotiate from strength? "Russia is smart enough to take advantage of our mistakes. We will see negotiations in 1975 and 1976 and I hope they will be

honorable."

Does Russia have a build up of missiles in Cuba? "Yes, for many years. They will use it as a spring board to South America and to the United States."

What are your views on predestination? "All of our talents are predestined."

Will Vice President Spiro Agnew be president? "Mr. Agnew will not be president. It is not his destiny."

Do you believe in flying saucers and unidentified flying objects? "Yes I believe in them and I have predicted them."

What is the future of the SST? "I believe it has its place for the knowledge we can gain from it."

Will Lyndon Johnson run for the presidency in 1972? "No, But he could have been a great president if he had been himself. Had he gotten his own men around him he could have done great things."

Will George Wallace be president? "He will do some great things for the American people. But it is not his destiny to be president of the U.S.A. It was the destiny of Richard Nixon to be president. Mr. Nixon is here for some reason."

Will there be a decline in violence at our colleges and universities? "Yes, there will be a decline in violence."

Mrs. Dixon concluded her program saying, "Your divinely granted talent is so great that unless you tap that divine spirit you will never develop it."

"God has given you a special purpose. It will not be easy, to develop that purpose, for you must have God and faith."

"The Black Panthers are run more by white people than by colored people," she said.

The seeress also predicted that Americans will face a time when they must choose between anarchy and repression and "we will choose repression unless we realize that's what the destructive forces want."

The answer to our nation is "change is needed, but change through transformation of the mind not through revolution."

A memorial mass at St. Ann's Catholic Church was held by Rev. Gist at 7 p.m. Tuesday.

The Schwallier family has requested memorials should be sent to the Panhandle Children's Home, St. Ann's Home for the Aged and the Cancer Society.

Survivors include her husband of Canyon; two sons, James and Thomas H., both of Jupiter, Fla.; three daughters, Mrs. Arnold Nussbaum of Amarillo, Mrs. K.G. Vaughn of Tulsa, and Mrs. Roy P. Burnett of Naples, Italy; and twenty grandchildren.

at the Pan American Center in Las Cruces tonight.

The game will be telecast live by KGNC starting at 8:30 p.m., Canyon time.

The Buffaloes take an eight-game winning streak to the Pan American Center, where the Aggies have not lost in their last 34 games.

The contest is the last of a three-game road trip for the Buffs who whipped Hardin-Simmons 106-88 last Saturday night and Texas-Arlington 89-83 Monday night.

Steve Davidson, 6-foot-7 junior college transfer, led the scoring in both games, getting 28 against the Rebels and 26 — the same number as Ray Golsen — against Hardin-Simmons.

The pair of victories raised West Texas State's season record to 18-6. New Mexico State has a similar mark after beating Idaho State 80-71 and losing to Seattle 77-71 on the road last week.

Buffalo Coach Dennis Walling is very aware that a victory over New Mexico State is a must if West Texas State is to get an NCAA playoff invitation.

"As I understand it, the NCAA selections will be announced March 2, the day after we play our last game of the season against Houston at home," Walling said.

"It would appear then that the NCAA selection committee would not take into consideration our game with Houston. So a victory at New Mexico State is a must."

There is more at stake for the Aggies than just a post-season tournament berth. They would also like revenge for one 72-67 loss to the Buffaloes at the Amarillo Coliseum Jan. 14. In that game, sophomore Ralph Houston paced the Buffs with 18 points and 15 rebounds.

New Mexico State has five players averaging in double figures with Harry Ward on top with 14 points per game.

Jeff Smith follows with 13, Chito Reyes and Alex Scott have 11 each and Roy Neal has 10. Ward, Smith and Reyes are one-two-three in rebounding.

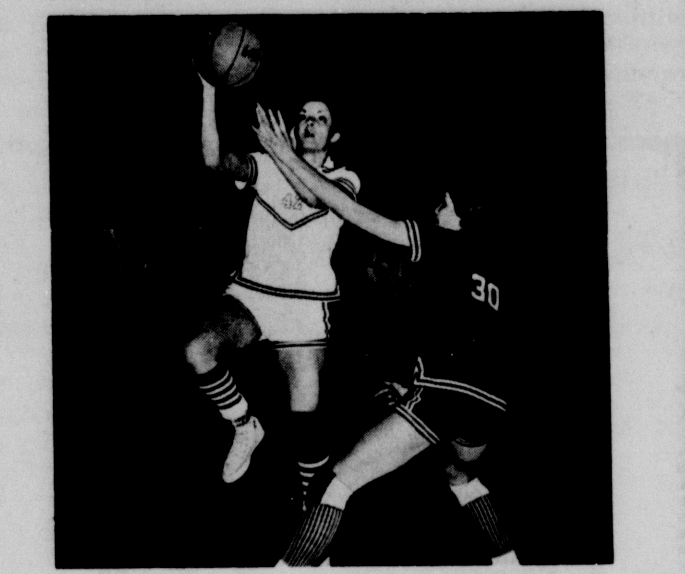

The Aggies' aggressive defense has forced opponents into an average of 23 turnovers per game.

West Texas State can counter with only three players in double figures. Golsen continues on top with just under 20 points a game. Davidson is averaging 18 per game and Houston 15.

The Buffaloes have the third best rebound average in the nation, pulling down nearly 58 a game.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III, Section 24, of the Texas Constitution, be amended to read as follows:

"Section 24. (1) The State Ethics Commission is created as an agency of the State. The commission consists of nine members. Three members shall be appointed by the Chief Justice of the Supreme Court of Texas with the advice and consent of the Associate Justices serving on the Court, three members shall be appointed by the Presiding Judge of the Court of Criminal Appeals of Texas with the advice and consent of the other judges serving on the Court, and three members shall be appointed by the Chairman of the State Judicial Qualifications Commission with the advice and consent of the other members of the commission, of each group of three appointees no more than two shall be attorneys engaged in the active practice of law. "(2) With the exception of the initial appointees, each member shall hold office for a term of six (6) years and until his successor is appointed and has qualified. In making the initial appointments, each appointing officer shall designate one (1) appointee to serve a term of two (2) years, one (1) appointee to serve a term of four (4) years, and one (1) appointee to serve a term of six (6) years. "(5) The commission shall promulgate rules of ethics to govern the conduct of all legislators, legislative officers and all officeholders, appointive or elective, of any office, department, district agency, commission, board or any governmental unit or branch established by or under the authority of the constitution and laws of the State of Texas and all persons who shall use any privilege of the floor in either House of the Legislature. The Texas State Ethics Commission shall further promulgate rules providing that each member of the Legislature and each of the hereinabove named officeholders upon election and any appointee to any of these offices shall file with the State Ethics Commission a statement under oath setting out a complete financial statement in detail within 10 days after being elected or receiving an appointment. This information shall be privileged information to the State Ethics Commission to be used only by them to determine if there exists a conflict of interests or if there is or has been a violation of any of the rules of ethics promulgated by the Texas State Ethics Commission or any laws of the State of Texas.

The Legislature shall enact statutes dealing with unauthorized disclosure or misuse of said privileged information.

"(6) The commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet in Austin at least once each year to review existing rules of ethics, legislative compensation and per diem rates, and to make any changes deemed necessary.

"(7) All rules of ethics, compensation rates, mileage allowances or per diem rates currently in force, as well as all changes and recommendations by the State Ethics Commission shall be promulgated before the convening of any session of the Legislature by filing a certified copy of the proclamation with the Secretary of State.

"(8) Each rule of ethics or change thereof made by the commission shall take effect on the 15th day of the legislative session following the proclamation unless disapproved before that day by resolution of either House of the Legislature.

"(9) All rates of compensation, mileage allowances or per diem rates and all changes and recommendations made by the commission shall not take effect until approved by section by resolution of both Houses of the Legislature.

"All votes on these resolutions or parts thereof shall show the individual votes in the respective journals of both Houses.

"(10) The commission shall investigate any alleged violation of any rule of ethics promulgated by it and report its findings to the appropriate State agency, official, legislative body, grand jury or district attorney.

"(11) Until otherwise provided by the commission, each member of the Legislature shall receive from the public treasury an annual salary of Four Thousand, Eight Hundred Dollars (\$4,800) per year and per diem not exceeding Twelve Dollars (\$12) per day for the first 120 days only of each Regular Session and for 30 days of each Special Session of the Legislature. No Regular Session shall be of longer duration than 140 days. In addition to the per diem, the members of each House shall be entitled to mileage in going to and returning from the seat of government, which mileage shall not exceed Two Dollars and fifty cents (\$2.50) for every twenty-five (25) miles, the distance to be computed by the nearest and most direct route of travel, from a table of distances prepared by the Comptroller to each county seat now or hereafter established; no member to be entitled to mileage for any extra session that may be called within one day after adjournment of the Regular or Called session.

"(12) The commission is further authorized to recommend to each Legislature changes which will update, improve, and effect economy in the legislative process."
